Conrad Gargett Architecture

For the last few years Monique has worked for one of Brisbane's largest architectural firms and gained experience in defence projects, aged-care developments, public and private school projects, public open space projects, local council projects, and, housing developments with an emphasis on ecologically-sensitive design.

Prior to embarking on a new career in landscape architecture, Monique studied Horticulture and worked in the Banking Industry for 10 years, her last role was as a Dealer in the Financial Markets for the Commonwealth Bank of Australia. Monique has worked in positions where accuracy, team work, communication, and services provided to clients were crucial to her role and her success. These attributes, along with her landscape architectural experience, flow through to her design work at Chenoweth Environmental Planning and Landscape Architecture where attention to detail is imperative in achieving exceptional outcomes.
